ABOUT US

Forge Academy is a private middle and high school for young men located in Bend, OR. Our mission is to build future readiness by developing identity, capacity and trajectory into every young man that graduates from Forge.

Forge provides a dynamic learning environment that shapes education around real-world applications. We focus on integrating skills and knowledge across each of our learning studios. Each Forge Learning Guide is creative in their pedagogical methods and willing to shift their approach in response to our students and their unique learning styles.

RESPONSIBILITIES

Instruct learners according to Forge Academy's Foundational Math Proficiencies. Curriculum and instruction will integrate with each of the learning studio projects. Our math proficiencies include, but are not limited to:

- Percentages, decimals and fractions
- Basic geometry
- Basics Algebra (single variable equations)
- Fundamentals of Finance

QUALIFICATIONS

- Masters degree in teaching or education is preferred.
- Work experience outside of traditional education is welcome. Examples of relevant fields include tech, entrepreneurship, finance, architecture, engineering etc...
- An openness to new and innovative teaching methods is imperative.
- An ability to build meaningful, trusting relationships with students and families is critical.
